

PARK & MUSEUM

# Drink & Drop

April 6, 2017

Science minded teams and individuals can try your hand at the classic elementary student competition by keeping an egg protected after dropping it from the top of Vulcan's 124-foot pedestal. The goal: to keep your egg from landing sunny side up! Join Vulcan Park and Museum's Junior Leadership Board and other supporting sponsors for this fun, inaugural event, including a reception on Vulcan's Plaza. Contact Ashley Thompson, Director of Development, for sponsorship or team registration details. [athompson@visitvulcan.com](mailto:athompson@visitvulcan.com) | 205.933.1409 x.106
